EXPOSING THE COMING BIO-TERROR PANDEMIC

BIOTERRORBIBLE.COM: When a major bio-terror attack and subsequent pandemic hit the United States of America, it will most likely be executed from behind the scenes by [Ezekiel Emanuel](#), soon to be known as the “Doctor of Death”. As it currently stands, the city of [Chicago appears to be bio-terror target #1](#) with Ezekiel’s brother [Rahm Emanuel](#) in the power position of mayor. Both Emanuel brothers are dual U.S. and Israeli citizens whose father is a known Zionist terrorist who conducted attacks for the [terror state of Israel](#) who will likely provide the pathogens for the future bio-terror attack.

Israel is the only modern nation that has not signed the 1972 [Biological Weapons Convention](#) (refusal to engage in offensive biological warfare, stockpiling, and use of biological weapons). Israel is also the only modern nation that has signed but not ratified the 1993 [Chemical Weapons Convention](#) (refusal to produce, stockpile and use chemical weapons). Should a future biological terror attack hit America or any other nation, the state of Israel and its citizens will be prime suspects.

The following government and non-government agencies, institutions and organizations also appear to be intimately involved in some aspect of the upcoming bio-terror attack: [BARDA \(Biomedical Advanced Research and Development Authority\)](#), [CDC \(Center for Disease Control\)](#), [Center for Biosecurity of UPMC](#), [EIS \(Epidemic Intelligence Service\)](#), [INTERPOL \(International Criminal Police Organization\)](#), [NBACC \(National Biodefense Analysis and Countermeasures Center\)](#), [NIAID \(National Institute of Allergy & Infectious Diseases\)](#), [NIH \(National Institutes of Health\)](#), [OBFS \(Organization of Biological Field Stations\)](#), [USAMRICD \(U.S. Army Medical Research Institute of Chemical Defense\)](#), [USAMRIID \(U.S. Army Medical Research Institute of Infectious Diseases\)](#) and the [WHO \(World Health Organization\)](#).

Title: United States Army Medical Research Institute Of Infectious Diseases

Abstract: The U.S. Army Medical Research Institute of Infectious Diseases (USAMRIID, pronounced U-sam-rid) is the [U.S Army](#)’s main institution and facility for defensive [research](#) into countermeasures against [biological warfare](#). It is located on [Fort Detrick](#), [Maryland](#) and is a subordinate lab of the [U. S. Army Medical Research and Materiel Command](#) (USAMRMC), headquartered on the same installation. USAMRIID is the only [U.S. Department of Defense laboratory](#) equipped to study highly hazardous [viruses](#) at [Biosafety Level 4](#) within [positive pressure personnel suits](#). USAMRIID employs both military and civilian [scientists](#) as well as highly specialized support personnel. In the 1950s and 1960s, it pioneered unique, [state-of-the-art biocontainment](#) facilities which it continues to maintain and upgrade. Investigators at its facilities frequently collaborate with the [Centers for Disease Control and Prevention](#), the [World Health Organization](#), and major biomedical and academic centers worldwide.

USAMRIID was the first bio-facility of its type to research the [Ames strain](#) of anthrax, determined through [genetic analysis](#) to be the [bacterium](#) used in the [2001 anthrax attacks \(Wikipedia, 2012\)](#).
